PERSONAL MEDICAL INFORMATION SYSTEMS

"On Demand" by Account Medical is new technology geared for the safety of employees! Let's face it, accidents at work can and do happen. And when they do, they can create chaos and a dangerous surrounding.

The first and best response for any emergency is to dial 911 and wait for First Responders.

Introducing "On Demand" by Account Medical.

Now imagine you as a company administrator, after calling 911, from your phone simply tap on the "On Demand" app and immediately view your "On Demand" company home page. There you will see a list of your company employees and the QR Code next to their name, tap on the QR Code of that injured individual and immediately view that person's medical profile they have filled out.

How is that for simplicity?

Now, you can take the correct active measures depending on their alerts or conditions they have listed or quickly contact their loved ones on the spot!

Now that's cool stuff!

To learn more about this new safety program and technology, visit us at: <https://accountmedical.com> and click on the **HOW ON DEMAND WORKS** tab for a full explanation. View a sample home page with sample QR Codes you can tap or scan and see what a personal profile looks like and the vital information that can be shared First Responders or health directors with First Responders or health directors.that can be shared with First Responders or health directors.

If you are a company head or supervisor of a small or large facility, you owe it to yourself and the ones that work with you to be prepared.

Technology is rapidly changing, so "let's put smart to work" with our "On Demand" safety program. Order today! Register your company to begin!
