

**Account Medical** LLC  
PERSONAL MEDICAL INFORMATION SYSTEMS

## Nursing Homes and Adult Centers

"On Demand" by Account Medical is spearheading what electronic medical records should be!

**Easily track a residents health condition/alerts, prescriptions, doses, health directives, etc. Update daily logs, emergency contact, blood type, test results and the list goes on and on.**

No complicated programs or expensive software to purchase or worrying about integrating with your current system.

"On Demand" is an "all in one" program that displays a resident's vital information at the tip of your fingers!

With "On Demand" simply tap on the "On Demand" app and open your company custom home page. View a list of all residents and their QR Code next to their name. Tap on the QR Code and immediately view that resident's personal medical profile.

### How is that for simplicity?

Our goal for our "On Demand" system is to unify all adult and nursing homes around the country.

To learn more about this new program and technology, visit us at: <https://accountmedical.com> and click on the **HOW "ON DEMAND" WORKS** tab. There you can view a sample home page with interactive QR Codes. Tap on one of those QR Codes and view what a personal medical profile looks like.

Technology is rapidly changing, so "let's put smart to work" with our new "On Demand" records program. Order today! Register your company to begin!
